All weekend long you will find rollerblading, breakdancing or graffiti initiation...

### CATERING ON SITE

Throughout these 2 days, you will find a restaurant on site which will be open from Friday evening. Public access

The Caen BMX team thanks you for your visit and wishes « good luck » to the pilots and a good stay to all.

The consequences of Covid-19 require us to put in place strict sanitary measures. Since 3 January, a new health protocol has been in force for the practice of sport

The health pass is compulsory from the 1st participant. The health pass is also compulsory for the participants' supervisors and spectators.

The health pass is compulsory for adults and for minors from 12 years and 2 months.

Currently, for the public, the capacity is currently 5,000 people outdoors and 2,000 people indoors, subject to the prefect's decision.

Athletes and staff will have to present their health pass at the registration desk and spectators at the entrance to the site. A bracelet will be given to them at this presentation.

As a reminder, the health pass consists of either

- a complete vaccination certificate valid 7 days after the last injection.
- or a negative PCR or antigenic test less than 24 hours old (at the time it is presented).
- or a positive PCR or antigenic test less than 6 months (and more than 11 days) old showing that the person has already developed the disease and is therefore naturally immune.

Pilots will be required to wear a mask and remove it when they put on their helmet and gloves when leaving their tent. Access to the pre-grid will only be possible with the helmet on and the gloves on. Drivers will have to take off their helmet and gloves only when they return to their tent in the pilot park.

We thank you in advance for respecting the rules in connection with these sanitary measures.

From 15 January 2022, and subject to the adoption by the Parliament, the Vaccination Pass will replace the Health Pass

NB: it is important to take into account that the present measures may evolve according to governmental decisions and the evolution (positive or negative) of the health situation.
